

DRAFT - Submitting a PR into an allocated 'Read' branch directly.

- a. When an Object/Resource has been submitted using the [Editor tool](#) an 'Issue' will be created in the lwm2m registry (<https://github.com/OpenMobileAlliance/lwm2m-registry/issues>) to start to the Object/Resource Approval process.
- b. On the receipt of the 'Issue', the OMA staff will review the submitted Object/Resource.
 - If your Object/Resource is accepted, then the 'Issue' will be updated with the instructions on how to submit a Pull Request.
 - The 'Issue' instructions will include;
 - a. Object ID & Object URN allocation
 - b. Validation Errors and Observations
 - c. Submitter's details added as a collaborator to a 'Read' Submission Branch for the submission of the PR.
