## DRAFT - Submitting a PR into an allocated 'Read' branch directly.

a. When an Object/Resource has been submitted using the Editor tool an 'Issue' will be created in the lwm2m registry (https://github.com /OpenMobileAlliance/lwm2m-registry/issues) to start to the Object/Resource Approval process.

b. On the receipt of the 'Issue', the OMA staff will review the submitted Object/Resource.

- If your Object/Resource is accepted, then the 'Issue' will be updated with the instructions on how to submit a Pull Request.
  - The 'Issue' instructions will include;
    - a. Object ID & Object URN allocation
    - b. Validation Errors and Observations
    - c. Submitter's details added as a collaborator to a 'Read' Submission Branch for the submission of the PR.

## STEPS ON HOW TO SUBMIT A 'PR' INTO ALLOCATED 'READ' SUBMISSION BRANCH.

Steps	Screenshot	Comments
<ol> <li>In GitHub, navigate to the main page of the repository - https://github. com /OpenMobileAlli ance/lwm2m- registry</li> </ol>	□ OpenMobileAlliance / lwm2m-registry	
2. From the <b>Branch</b> dropdown menu select the Object submission branch	Branch: test ▼       New pull request         Switch branches/tags       *         Find or create a branch       *         Branches       Tags         Golden-maple-data       *         IPSO-Package       *         SE-Water       *         TUT       *         digital       *         lwm2m       *         prod       *         seanmcliroy29-patch-1       *         seanmcliroy29-patch-2       *         *       test	The notification of the Object submission Branch will be provided by the OMA Staff in the associated submitted issue
3. From the Object submission branch, click 'Create new file'	♥ 0 releases     ♀ contributors       Create new file     Upload files       Find File     Clone or download -	
4. Enter the allocated Object /resource ID e.g. 3001.xml	lwm2m-registry / object number.xml	Allocated Object ID will be provided by the OMA Staff in the associated
	<> Edit new file	submitted issue

5. Submit the full object/resource code	OpenMobileAlliance / lwm2m-registry	Ensure the copyright information is in the header
<ul> <li>6. Commit new file;</li> <li>Add title - [Company name] Object Name - Object name</li> <li>Add File details</li> <li>Click - 'Create a new branch for this commit and start a pull request'.</li> <li>Click 'Propose new file'</li> </ul>	Commit new file   [Company name] Object Name - Object ID   Add an optional extended description     Intiliroy@omaore.ore   Choose which email address to associate with this commit   • < Commit directly to the test branch.   • 1 Create a new branch for this commit and start a pull request. Learn more about pull requests.   • Seanmcilroy2-patch=3   Propose new file   Cancel	
<ul> <li>7. Create PR</li> <li>Ensure the base is pointing to the Object submission branch</li> <li>PR Title - [Orga nisation Name] - Object Name - Object number</li> <li>Add object description</li> <li>Click 'Create Pull Request'</li> </ul>		Once the PR has been created it can be viewed here - https://githu b.com /OpenMobile Alliance /lwm2m- registry/pulls The Working Group may suggest some changes or ask for clarification. You are required to respond promptly with any discussions and provide feedback. Once the Pull Request is accepted, the staff will move the Object / Resource to the public OMNA LwM2M Registry.

NOTE: As an alternative, a submission can be submitted by creating a fork, or copy, of the repository - see How to submit a new Object/Resource to the "lwm2m-registry" via a 'Fork'
